### Project Description 200 -500 English words + Chinese

### Attention:

Due to there is a large group of followers of our platform who are mainly Chinese, so we need you to provide the bilingual project description in Chinese and English in 200-500 words. We can provide you with accurate Chinese translation services with a little fee (500 RMB for one project), but if you are not willing to pay, the ordinary translations are free but with a poorer quality. We would like to know if you need the translation services from us or not when submitting the projects.
